

FOR FINANCIAL INSTITUTIONS

Your next financial service. Your client relationship.

Connect everyday banking, agent-assisted operations and selected digital-asset services around the relationship you already own.

Retain the relationship

Give clients a coherent path from identity and onboarding to payments, portfolio information and approved new services.

Increase operating capacity

Prepare requests once. Put the evidence in front of the right reviewer. Carry the result back into the client experience.

Grow through the ecosystem

Add approved banking, payment, card, custody and market partners through a shared technology foundation.

One delivery partner. A connected Hybrid foundation. Your institution in control.

Agree one valuable client journey with OVRYPDE. ↗
